R P S V & Co., Chartered Accountants ("Special auditors") as provided in the SEBI Guidelines. Accordingly, this financial statements is referred to as "Re-audited Financial Statements", which is approved by the Board of Directors in their meeting held on January 25, 2022.

Actual results could differ from those estimates. Estimates and underlying assumptions are reviewed on an ongoing basis. Any revision to accounting estimates is recognized prospectively in current and future periods.

2.3 Estimation of uncertainties relating to the global health pandemic from COVID-19

The Company has considered the impact of COVID-19 in preparation of the financial information. In this process, the company has taken in to account changes in both internal and external factors affecting the business and assets of the company. The actual impact of the pandemic could be different from the estimates.

Current tax is measured at the amount expected to be paid to the tax authorities in accordance with the taxation laws prevailing in the respective jurisdictions.

Deferred tax is recognised for all the timing differences, subject to the consideration of prudence in respect of Deferred Tax Asset. Deferred tax assets are recognised only to the extent there is a reasonable certainty that the assets can be realised in future; however, where there is unabsorbed depreciation or carried forward loss under taxation laws, deferred tax assets are recognised only if there is a virtual certainty of realisation of such assets. Deferred tax assets are reviewed as at the balance sheet date and written down or written up to reflect the amount that is reasonably/virtually certain (as the case may be) to be realised. Deferred Tax Assets and liabilities are measured using the tax rates and tax laws that have been enacted or substantially enacted by the balance sheet date. The weighted average number of equity shares outstanding during the period and for all periods presented is adjusted for events, such as bonus shares, other than the conversion of potential equity shares, that have changed the number of equity shares outstanding, without a corresponding change in resources.

For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period is adjusted for the effects of all dilutive potential equity shares.

2.14 Cash flow statement

Cash flows are reported using the indirect method, whereby profit before tax is adjusted for the effects of transactions of a non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from regular revenue generating, financing and investing activities of the Company are segregated.

2.15 Foreign currency transactions

Transactions in foreign currencies are recorded at the exchange rates prevailing on the date of transaction. Foreign currency monetary assets and liabilities are translated at year end exchange rates. Exchange differences arising on settlement of transactions and translations of monetary items are recognised as income or expense in the year in which they arise.
